LAKE ATITLAN, GUATEMALA

Combine luxury and sustainability with a stay at Laguna Lodge this Earth Day. Nestled within its own nature reserve by the edge of Lake Atitlan, this eco-resort in Guatemala delivers on all fronts: fresh, locally grown ingredients at its lakefront restaurant; solar-powered energy; and vegan hypoallergenic bedding and pillows. Explore Laguna's 100-plus acres of land that are home to bird species like the endangered belted flycatcher. And once your trip ends, you can feel good knowing this was, indeed, a guilt-free vacation.
